

URODYNAMICS SERVICES AT CHESAPEAKE UROLOGY

URODYNAMICS AT-A-GLANCE

Urodynamics refers to a series of diagnostic tests that evaluate the function of the bladder and the urethra. These tests may be recommended for patients with urinary incontinence, recurrent bladder infections, slow or weak urinary stream, incomplete bladder emptying, or frequent urination.

Five convenient locations:

The Continence Center
21 Crossroads Drive
Suite 450
Owings Mills, MD 21117

Franklin Square Hospital
6820 Hospital Drive
Suite 210

Baltimore, MD 21229

WHY CHOOSE CHESAPEAKE UROLOGY FOR URODYNAMICS SERVICES?

Chesapeake Urology's urodynamicists work closely with a patient's physician while guiding and supporting patients through the urodynamics studies. Our urodynamicists are highly-trained specialists who are dedicated to ensuring that each patient is comfortable both physically and psychologically. The urodynamicists at Chesapeake Urology plays an important role in the patient care team.

CHESAPEAKE UROLOGY'S HIGHLY-TRAINED URODYNAMICISTS PERFORM THE FOLLOWING TESTS:

- **Uroflow:** This test measures the speed and amount of urine a patient voids
- **Cystometrogram:** This study evaluates how the bladder holds urine, measures the bladder capacity, and also determines how well a patient can control their bladder
- **EMG:** This test measures how well a patient can control the pelvic floor muscles and determines if they are working in coordination with the bladder
- **Pressure Flow Study:** This test determines if there is an obstruction in the bladder or urethra
- **Videourodynamics:** This study is a combination of the above tests with the addition of video pictures

DIRECTOR, URODYNAMICS

Betty McVicker-Hall, CMA, Urodynamicist

17 years of experience in urodynamics

Certified in performance and interpretation of urodynamic/video urodynamics

Areas of specialty: Neurologic conditions and disorders (multiple sclerosis, spinal cord injuries, diabetes, and Parkinson disease), incontinence, voiding dysfunction and neurogenic bladder
